#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

This office action is in response to an amendment filed 3/10/04. Claims 1-5 and 7-9 have been cancelled. Claim 6 is pending in this application.

### ***Response to Amendment***

Any rejection of record in the previous action not addressed in this office action is withdrawn. There are new grounds of rejection herein that were not necessitated by Applicant's amendment and therefore, this action is not final.

### ***Specification***

The substitute specification filed 3/10/04 has been entered.

The brief description of the drawings indicates that figure 1 is a "coloring" image. If this is intended to mean that the figure is in color, color photographs and color drawings are acceptable only for examination purposes unless a petition filed under 37 CFR 1.84(a)(2) is granted permitting their use as acceptable drawings. In the event that applicant wishes to use the drawings currently on file as acceptable drawings, a petition must be filed for acceptance of the color photographs or color drawings as acceptable drawings. Any such petition must be accompanied by the appropriate fee set forth in 37 CFR 1.17(h), three sets of color drawings or color photographs, as appropriate, and, unless already present, an amendment to include the following language as the first paragraph of the brief description of the drawings section of the specification:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

Color photographs will be accepted if the conditions for accepting color drawings have been satisfied.

***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Basler et al (Biochemistry, 1981, Vol 20, page 6921-6929; see entire document). **This is a new rejection.**

Basler et al teach the cleavage of genomic DNA with DNaseI, micrococcal nuclease or endogenous digestion (see page 6922, column 1, paragraph 2 and bridging g paragraph column 1-2). Repetitive DNA fragments were isolated and small nuclear matrix mouse DNA was analyzed for satellite sequences (see figure 6B). Probes were hybridized to cloned repetitive gene fragments (see page 6923, column 1, paragraph 5). The clones giving the strongest signal are mouse major satellite (see page 6926, column 1, paragraph 1).

***Conclusion***

Claim 6 is rejected.
